About me

As a passionate aspiring Machine Learning Engineer, I am dedicated to mastering skills for impactful data-driven solutions. Committed to continuous learning, I aim to apply advanced algorithms to solve diverse challenges and drive innovation, leveraging my technical expertise and creativity to contribute to groundbreaking advancements in the field.

Education

Sant Longowal Institute of Engineering and Technology (Bachelor of Engineering Computer Science 3rd)	2021- Present 9.2 CGPA
Spectrum Institute (Intermediate in Maths)	2018 - 2020 88%

Skills

Languages: C/C++, Python, Javascript

Algorithms and Data Structures: Proficient in DSA, DAA

Database Management: DBMS, SQL

Library: Numpy, Pandas, Matplotlib, Seaborn, Plotly

Frontend: HTML, CSS, Js , React

Tools: MS Power Point, MS Excel, MS Word, Visual Studio Code

Projects

Credit Risk Modeling using Machine Learning

- Developed a predictive model to assess credit risk using machine learning algorithms.
- Analyzed financial data to inform the model.
- Implemented feature engineering and validation techniques.
- Achieved a robust model for predicting borrower defaults.

OOPS Project /api handling in python

- Developed a GUI with Tkinter, utilizing Object-Oriented Programming principles.
 - Seamlessly integrated three natural language processing APIs.
 - Implemented APIs for sentiment analysis, named entity recognition (NER), and emotion detection.
-

Certification

Personality Development Training

Python Development Training

Achievements

Gate Exam Qualified (Data Science)

300 Questions on GeeksforGeeks (Problem Solving)

Hobbies

Chess, Reading Books
